SUMMARY OF MEETING:

CPSC staff met with representatives of the American Council of Independent Laboratories (ACIL) to discuss laboratory accreditation issues associated with the proposed mattress standard. ACIL presented general information on laboratory accreditation programs and independent testing. The ACIL will be submitting written comments regarding the need for lab accreditation programs in response to the CPSC notice of proposed rulemaking (NPR) on the flammability of mattresses (16CFR1633) published in the Federal Register on January 13, 2005. The public comment period closes March 29, 2005.
